

Glass and Polymer  
Technologies

# Modifications

A lot of modifications are possible. The following samples show frequently used modifications.

## Colours:

- in general: natural, white and black
- POM: special colours possible
- PVC: grey, black, red, white

## Reinforced & filled types:

- PTFE with carbon and fibreglass
- PP with carbon black
- PEEK with carbon fibre, PTFE, fibre glass
- anti-bacterial additives

## Caution:

- observe minimum quantities

⇒ *Filling materials can impact the bio-compatibility properties.*
